Cobalt Blue Light
Kings Blue Deep
Viridian Green
Ivory Black

Canvas Panels

I use the following brands. I am giving you three options based on affordability. The Artefex Panels and the Raymar Panels are expensive as they are lead oil primed (smoother surface) but the New Traditions is relatively cheaper. I love the Oil primed C13 New traditions Panels just as much as the lead primed linen panels. So get whatever suits you.

Brands- Artefex, New Traditions, Raymar Art Panels

Artefex Panels – order your Panels from this link below

<https://www.artefex.biz/home/product/lead-oil-primed-acm-panel-2/>

Artefex is offering a special discount to the students of this workshop. Use the 25% discount code suchitra2019 (all lower case) to try these linen panels that I have been using and have loved them.

Panel Type- 533/532 Both are Lead Oil Primed Linen Panels for portrait and figurative work (one is smoother than the other)

Alternate cheaper option is ACM Panel 411 which is not a linen panel but has some tooth yet is smooth for beautiful brushwork.

Size of Panel- 12"x16" or 14" x18"

New Traditions Art Panels

C13 Portrait Grade
